

To prepare for this homework session, see if you can answer these questions.  
The answers will be provided during the presentation.

1. You need to make a link from the home page on a website to another page on the same website. Should you use an **absolute** link or a **relative** link and why is one better than the other?
2. What are the errors in this HTML document?

```
<!DOCTYPE html >
<html>
  <head>
    <title><h1>Cycling Routes<h1></title>
  <head>
  <body>
    <link rel="stylesheet" href="stylesheet.css">
    <h1> Welcome to the new cycling routes home page!</h1>
    <p align = centre> France</p>
  </body>
</html>
```

3. What would the output be when this HTML page was opened in a browser?

```
<!DOCTYPE html >
<html>
<head>
  <title>Home Page</title>
</head>
<body>
  <div align="center">
    <h1><strong>Welcome to the Ideal Home page</strong></h1>
    <p><a href="home.html">Click here to enter</a></p>
  </div>
</body>
</html>
```
