

DNA and Gene expression

Please complete the glossary words in advance of the online session.

Key Area 2: Structure and replication of DNA	
Antiparallel	
DNA	
Chromosome	
Nucleotide	
Protein	
DNA polymerase	
Lagging strand	
Lead strand	
Ligase	
Primer	
Template strand	

Key Area 3: Gene Expression	
Anticodon	
Codon	
Exon	
Intron	
mRNA	
rRNA	
tRNA	
Post translational modification	
Primary Transcript	
RNA	
RNA polymerase	
RNA splicing	
Transcription	
Translation
